

PLUS+€CHEM

Your distributor for speciality chemicals in Europe

Our Products.

PORO®

Pharma, Cosmetics,
Food and Feed:
Organic intermediate
products
Synthesis systems
Contract manufacturing
Amino Alcohols
Cellulose Ethers
CMC
Borates
Boric acid
Fumed silica
Fumed aluminum oxide
Effect Pigments
Functional active
substances for skin and
haircare
Medicinal products
Food supplements
Food preservatives
(Vegetables; fruit; salads;
herbs)
Disinfection products
Titanium dioxide
Preservation products
Pre-emulsified oleosomes
(safflower)
L-carnitine formulations
Docosahexanoic (DHA)
Talc
Mild alkaline surfactants
Glycerin
Isopropyl alcohol
Solvents
Citric acid
Ascorbic acid
Acids
Activated charcoal
Animal feed additives
based on bentonites

Mykotoxin binders
Paint, Varnish
and Construction
compounds:
Cellulose ether
CMC
Nitroparaffins and
alcohols
Ammonia alcohols
Oxazolins
Plastics:
Flexible Compounds
Stabilizers
Master Batches
Conducting Compounds
PVC-Compound
Effect pigments
Stabilizers for PVC
Paint preparation
Stabilizers
PA6 Compounds
Master Batch Additives
Colour Master Batch
Talc Master Batches
VCI Master Batches
Epoxy resins
PP Compounds
Propellant and
nucleation master batch
PVC Compounds
Additive Master Batches
One Pack Additives
Glass fibres
PVC Compounds
PP Compounds
Antioxidants
Carbon Fibre yarns
Flame inhibitor
compounds
PA virgin compound

Water Chemistry:
Polymers for the
treatment
of effluent and drinking
water
Iron salts
Water treatment
chemicals
Water technology
chemicals
Iron II sulfate
Specialties:
Cellulose ethers
Disinfectants
Batch preservatives
Borates
Boric acids
Fumed silica
Conducting plates
Rheological additives
Thickeners
Dispersion agents
Effect Pigments
Enzymes
Poro Tensides
Zeolites
Copolymers
TAED
Bentonite wash
Softeners
Color Speckles
Tenside mixtures
Complex formers
Dispersers
De-foaming agents
Acids
Alkalis
Solvents
Alcohols

PLUS+€CHEM

*Your distributor for speciality
chemicals in Europe*

Food and feed additives
Pigments and fillers
Natural gums
Thermoplastic resins and additives
Rubber and rubber additives
Coating additives
Resins/tackifiers
Pharmaceutical intermediates, actives and excipients
High purity solvents and intermediates
Engineering resins and compound

GOLDMANN®

Metal Salts
Candle Colours
Flame retardants
Catalysts
Dyes and pigments
Rare earths and derivatives
Thermoplastics
Organic intermediates and specialities
Food colours
Inorganic and Organic specialities
Engineering resins

PLUS+€CHEM

Your distributor for speciality chemicals in Europe

Organic esters
Lubricant additives
Plastic additives
Detergent raw materials
Resins/binders
Synthetic thickening agents
Defoamers, mould release agents
Rubber and rubber additives
Pigments and fillers
Surfactants
Dispersing agents
Mineral thickening agents
Cellulosics
Polymer initiators and crosslinking agents
Coating additives
Food additives and ingredients
Biocides
Thermoplastic resins
Natural gums
Pharmaceutical additives, intermediates and excipients
Cosmetic additives

Anticorrosive pigments
Bronze and Aluminium pigments
Coatings additives
Crosslinking agents
EPDM/PU sport applications
Phenolic resins
Plastic additives
PU and TPU resins
Resins for coating
Resin tackifiers
Rubber additives
UV Absorbers
Stabilizers for PVC

 Lithos Benelux

About Lithos

Markets

Producers

Our Products

Products

- Alcoholates
- Alkyles
- Aluminium oxyde
- Antimony Trioxyde
- Emery grains (abrasive)
- Anti-slip powders (PP)
- Barium metaborate
- Butyllithium
- Calcium Borate
- Carmine
- Cellulose
- Cesium and -compounds
- Chromatography gels
- Corund (normally brown)
- Corund (white and rosa)
- Decoration glitters / -flakes
- Desiccants
- Essential oils
- Fibres (Pa/Pac/Pe/Glass/Cotton)
- Fillers – minerals
- Fillers - organic
- Fluotracers
- Getters
- Grignards
- Leak detection powder
- Lithium and -compounds
- Lithium aluminium hydride
- Lithium metal
- Magnesium carbonate
- Magnesium chloride
- Magnesium Pentaborate
- Magnesium Sulfate
- Matting agents
- Melamine Borate
- Metal powders
- Methaspheres
- Mineral black
- Molecular sieves
- Natural Latex
- Natural Rubbers
- Organomagnesium compounds
- Paracymene
- Pigments – fluorescent
- Pigments – phosphorescent
- Pigments – thermochromatic
- Pigments - anorganic
- Pigment - organic
- Pine oil
- Resins
- Silicium Carbide black
- Silicium black
- Silicium metal
- Silicagel (also in sachets)
- Sodium molybdate
- Spherglass (glass balloons)
- Stearates
- Tackifiers
- Talcum
- Tall oil (Tall oil fatty acids etc.)
- Terpenes (Dipentene etc.)
- Terpeneol
- Thixotropic agents
- Tracers
- UV-scanners
- Shell granules and powder
- Woodflour
- Zeolite
- Zinc borate
- Zinc(hydroxyl)stannate
- Zinc sulfate
- Zirconium powder
