

Market Activities

Our business is diverse, mirroring the European chemicals industry as a whole. The strengths of our group are the strengths of our individual partners:

- well established medium sized distributors with long standing businesses
- good client and supplier relationships
- comprehensive technical support and back-up.

We are market-leaders across a wide range of industries including:

- plastics and plastics additives
- coatings
- adhesives
- rubber chemicals
- pharmaceutical intermediates
- actives and excipients
- food additives

Access to a wide range of market knowledge and strong inter-group synergy enables us to serve diverse market sectors, bringing support and value to principal and client alike.
